

FAMILY GAME: HIDE AND SEEK

HOW TO PLAY

1. Parents or Guardians are first to seek. They will close their eyes and count to 20.
2. While parents are counting, all the kids find a hiding spot in the house (be sure to set boundaries for safety).
3. Once the parents count to 20, they will seek out children. Who ever they find first is next to count. However, the next game can't start until everyone is found.
4. To make things more interesting, you can incorporate Marco Polo by which parents yell "Marco" while they're seeking, making kids have to respond with "Polo" giving clues as to where they may be hiding.

This is a fun game that little kids under 5 will love.
